Sir:

In accordance with the duty of disclosure under 37 C.F.R. § 1.56, Applicant hereby notifies the U.S. Patent and Trademark Office of the documents which are listed on the attached PTO/SB/08 A & B (modified) form and listed herein and which the Examiner may deem material to patentability of the claims of the above-identified application.

1. Japanese Unexamined Patent Application Publication No. H05-264711, published October 12, 1993.
2. Japanese Unexamined Patent Application Publication No. H08-201079, published August 9, 1996.
3. Japanese Unexamined Patent Application Publication No. H08-340570, published December 24, 1996.

One copy of each of the listed documents is submitted herewith.

INFORMATION DISCLOSURE STATEMENT

U.S. Appln. No.: 09/982,817

The present Information Disclosure Statement is being filed: (1) No later than three months from the application's filing date; (2) Before the mailing date of the first Office Action on the merits (whichever is later); or (3) Before the mailing date of the first Office Action after filing a request for continued examination (RCE) under § 1.114, and therefore, no Statement under 37 C.F.R. § 1.97(e) or fee under 37 C.F.R. § 1.17(p) is required.

In compliance with the concise explanation requirement under 37 C.F.R. § 1.98(a)(3) for foreign language documents, Applicant encloses herewith a copy of a corresponding Japanese Office Action dated March 10, 2004 and an English translation of the pertinent portions thereof which cites such documents and indicates the degree of relevance found by the foreign patent office.

The submission of the listed documents is not intended as an admission that any such document constitutes prior art against the claims of the present application. Applicant does not waive any right to take any action that would be appropriate to antedate or otherwise remove any listed document as a competent reference against the claims of the present application.

The USPTO is directed and authorized to charge all required fees, except for the Issue Fee and the Publication Fee, to Deposit Account No. 19-4880. Please also credit any overpayments to said Deposit Account. A duplicate copy of this paper is attached.

Cited Literature 1 to 3 regarding Claims 1 to 6

#### Comments

Although in that which is described in Cited Literature 1, the North Pole in the South Pole are used as the reference points on the globe, the use of any number of points as the reference points on the globe could be an appropriate design for an individual in the industry.

Cited Literature 2 describes the technological concept of receiving a transmitted wave from an earth station and providing a display relative to a target position based on the direction thereof in a transceiver terminal that provides displays regarding target locations.

Cited Literature 3 (referencing, for example, the description regarding Figure 4) describes a technological concept where positioning information is transmitted from earth station to earth station according to a request from a moving body.

Consequently, the inventions in Claims 1 to 6 in the present application could have been invented easily by an individual in the industry based on the inventions described in Cited Literature 1 to 3.
